Bill,

Thanks so much for all your work in getting the Web page updated! It looks great!

Thanks, Rich. The Columbia Falls page has been updated.

<http://www2.epa.gov/region8/columbia-falls-aluminum-reduction-plant>

Let me know if you come up with material for updating the News and Events page.

In case you hadn't noticed, the news feed no longer works on the [News and Events](#) or [About Region 8](#) pages. WebCMS support said it's something to do with the new releases being in the www domain and our pages being in www2 that violates browser security. They said they are working on moving all of the news releases into a compatible domain. Until then, no automatic news feeds!

Bill, fyi. I imagine we can update the CFAC page with a link to this release? Also, if we can get you a good image of the site-- maybe this is a candidate for updating the news and events banner?
